

Seat belt protection and extenders

Colostomy UK does not recommend individual companies or their products. The following is a selection that may assist in the management of your condition.

Clippasafe

Tel: 0115 9211 899

Email: enquiries@clippasafe.co.uk

Web: www.clippasafe.co.uk

Bump Belt

Clippasafe has developed the innovative Bump Belt to help protect unborn babies and mothers-to-be whilst travelling by car, but it may also be suitable for people living with a stoma. The Bump Belt's seat pad fastens the vehicle seatbelt as normal, ensuring that the lap portion could possibly be positioned away from the stoma (depending on location). The Bump Belt's two elasticated flaps are then simply secured over the lap portion of the seatbelt.

Care4Car

Tel: 0845 2252 848 (local call rate) or 0186 9255 761

Web: www.care4car.com

CarPoint Seat Belt Stopper

The seatbelt stopper fits around the seat belt, and allows you to pull out some slack so you can drive in comfort and without affecting the operation of the car seat belt.

CarPoint Seat Belt Clip Klunk Klip

Relieves seat belt discomfort which can be caused by the seat belt rubbing.

Stoma Wise

Tel: 0197 8355 626

Web: www.stomawise.co.uk

Comfy Drive

The Comfy Drive works by having a sponge block either side of your stoma pouch which holds the lap part of the seatbelt away from the stoma, available in a range of colours.
