

Manufacturers

Colostomy UK does not recommend individual companies or their products. The following is a selection that may assist in the management of your condition.

Stoma manufacturers are the companies that design and make stoma products.

This includes items such as:

- Stoma bags
- Baseplates and flanges
- Seals, rings and paste
- Adhesive removers and skin protection products
- Accessories such as belts or support garments

Manufacturers develop, test and produce the products, but they do not usually supply them directly to you. Instead, their products are prescribed by your GP or stoma nurse and dispensed through a stoma supplier or pharmacy.

You may come across different brands, and what works best can vary from person to person. Your stoma care nurse can help you find the right products for your needs.
